

## Information about the Fire Alarm System

1. The entire building has a complete Fire Sprinkler System which includes: Attics, Hallways, Resident Rooms and Bathrooms, Offices, Storerooms, Kitchen Dining Room, Multi-Purpose Room and Basement.
2. Wing F and Wing G have smoke detectors in Hallway and Lounge only. There are no smoke detectors in Attic or Resident Rooms on F and G Wings.
3. Red lights on fire alarm panel indicate alarms, yellow lights indicate trouble, green light indicates A/C power.
4. If the sprinkler system goes off: the fire alarm system will activate and red light under Fire Alarm will light, by pushing Fire Alarm ACK button it will give the location of the sprinkler area that is in alarm.
