Britax Recalls B-Nimble Strollers Due to Risk of Brake Failure

WASHINGTON, D.C. - The U.S. Consumer Product Safety Commission and Health Canada, in cooperation with the firm named below, today announced a voluntary recall of the following consumer product. Consumers should stop using recalled products immediately unless otherwise instructed. It is illegal to resell or attempt to resell a recalled consumer product.

Name of Product: B-Nimble Strollers

Units: About 20,000 in the United States and 800 in Canada

Importer: Britax Child Safety Inc., of Charlotte, N.C.

Hazard: An audible click heard when the brake pedal is pressed can give a false impression that the brake is fully engaged when it is not. When the brake is not engaged, the stroller can move unexpectedly posing a risk of injury to the child occupant.

Incidents/Injuries: Britax has received seven reports of the brake not being fully engaged. No injuries have been reported.

Description: This recall involves B-Nimble umbrella strollers manufactured on or after August 1, 2010. Strollers included in the recall have model numbers U311771, U311773, U311775 and U311780. The date of manufacture labels and model numbers can be found on the lower frame/tube on either the left or the right side. The strollers were sold in a variety of colors including black and silver, Cowmooflage (black and white), green and red.

Sold at: Juvenile product and mass merchandise stores nationwide and online retailers between September 2010 and June 2011 for about \$200.

Manufactured in: China

Remedy: Consumers should immediately stop using their strollers and contact Britax for information and to request an improved replacement stroller. Consumers who resume use of their strollers while awaiting the replacement should always ensure that the brake is fully engaged.

Consumer Contact: For additional information, contact Britax toll-free at (888) 427-4829 between 9 a.m. and 5 p.m. ET Monday through Friday and, or visit the firm's website at www.britaxusa.com

Note: Health Canada's press release is available at http://cpsr-rspc.hc-sc.gc.ca/PR-RP/recall-retrait-eng.jsp?re_id=1352

On the stroller frame, near the storage basket, there should be a white label on either side of the stroller with the stroller's model number, batch number, and manufacture date.

The U.S. Consumer Product Safety Commission (CPSC) is still interested in receiving incident or injury reports that are either directly related to this product recall or involve a different hazard with the same product. Please tell us about your experience with the product on www.saferproducts.gov

CPSC is charged with protecting the public from unreasonable risks of injury or death associated with the use of the thousands of consumer products under the agency's jurisdiction. Deaths, injuries, and property damage from consumer product incidents cost the nation more than \$900 billion annually. CPSC is committed to protecting consumers and families from products that pose a fire, electrical, chemical, or mechanical hazard. CPSC's work to ensure the safety of consumer products - such as toys, cribs, power tools, cigarette lighters, and household chemicals - contributed to a decline in the rate of deaths and injuries associated with consumer products over the past 30 years.

Under federal law, it is illegal to attempt to sell or resell this or any other recalled product.

To report a dangerous product or a product-related injury, go online to: www.saferproducts.gov, call CPSC's Hotline at (800) 638-2772 or teletypewriter at (800) 638-8270 for the hearing impaired. Consumers can obtain this news release and product safety information at www.cpsc.gov. To join a free e-mail subscription list, please go to <https://www.cpsc.gov/cpsclist.aspx>.
