

Tribal FQHC vs Tribal Clinic Medicaid Reimbursement Rate Comparison

Tribal FQHC providers: Reimbursed at an established Tribal FQHC rate for services provided inside or outside a facility. A standard Tribal FQHC rate calculated on the reasonable cost of services or an Alternative Payment Methodology (APM) rate. The APM rate can be set at the IHS All Inclusive Rate.

Tribal Clinic providers: Entitled to the IHS/Tribal All Inclusive Rate for services provided inside the facility, but reimbursed at the regular non-IHS Medicaid rate (fee for services) for services provided outside the facility. Services provided outside the facility will require a provider enrollment for each type of service provided.

Health Care Service Examples	Tribal FQHC		Tribal Clinic			
	Billing Code	Inside or Outside the 4-walls	Billing Code	Inside the 4-walls	Billing Code	Outside the 4-walls
