

# Montana Medicaid Tribal Consultation

## Tribal Residential Treatment Facility Next Steps and Implementation

December 10<sup>th</sup>, 2025

DEPARTMENT OF  
**PUBLIC HEALTH &  
HUMAN SERVICES**

# Purpose

- Discuss Proposed SPA Language and Cost Report Spreadsheet
- Review Next Steps
- Implementation Process

# Discussion

- Review the proposed SPA language in the handout
  - Intent is to submit the SPA in the early part of 2026
  - Effective date of July 1, 2026
- Review the Tribal Residential Treatment Facility (TRTF) cost report spreadsheet
  - Updated to reflect the personnel request from the November 2024 consultation

# Next Steps After SPA Approval

The Department will need to update the Medicaid Management Information System (MMIS)

- Considering the use of Revenue Code 919
  - This will be billed once per day/per patient
- There are 2 applicable HCPCS codes that are open
- Facilities would be able to span bill

Residential services would require a prior authorization to confirm that the Medicaid member meets criteria for the appropriate level of service.

# Implementation Process

- Target implementation date of July 1, 2026
- Develop trainings and resource materials
  - Questions or topics the tribes would like to see as part of the trainings or resource materials?

Any other areas for discussion?

Thank you for today's discussion and participation.
