

## Montana Medicaid Peer Support Services - Year 1

**2304 Members**  
**23 Health Care Centers**  
**84 Certified Professionals**  
**20,402 Hours of Service**

### Members

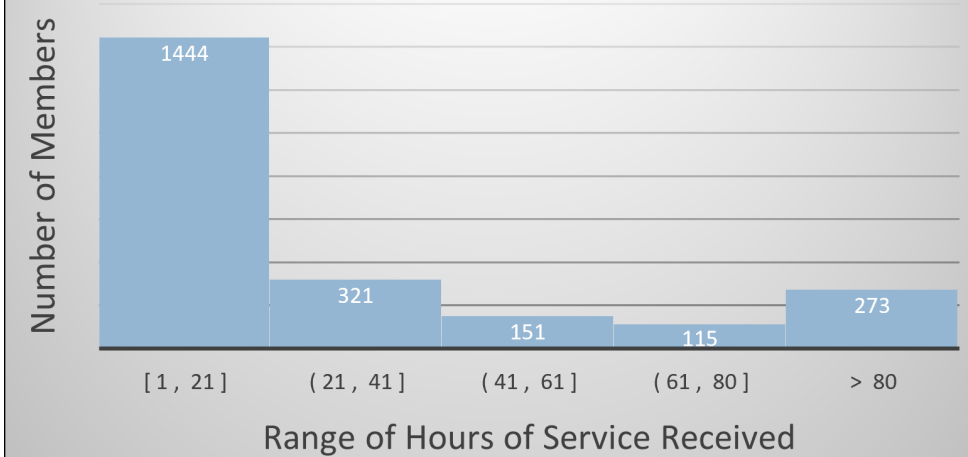

**Where are members receiving peer support services?**

Montana Medicaid members with a **Severe and Disabling Mental Illness (SDMI)**, a **Substance Use Disorder** or a co-occurring disorder can receive paid peer support services.

In the first year of the program **2,304 Montana Medicaid members** have received an **average of 9 hours of services** provided by a certified peer support specialist employed at health care centers across Montana.

**How many hours of peer support services did members receive?**

### Providers & Certified Professionals

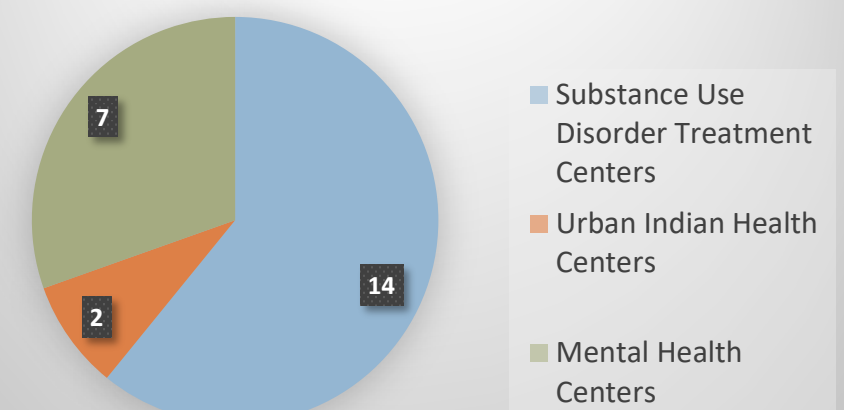

**Providers:**

The standard Montana Medicaid benefit plan includes coverage for peer support services when provided at a Tribal Health Center, Urban Indian Health Center, Indian Health Service Facility, Mental Health Center, Substance Use Disorder Treatment Center, Federally Qualified Health Center, or Rural Health Clinic. To date **23 providers have provided and billed services** on behalf of Montana Medicaid members.

**Certified Professionals:**

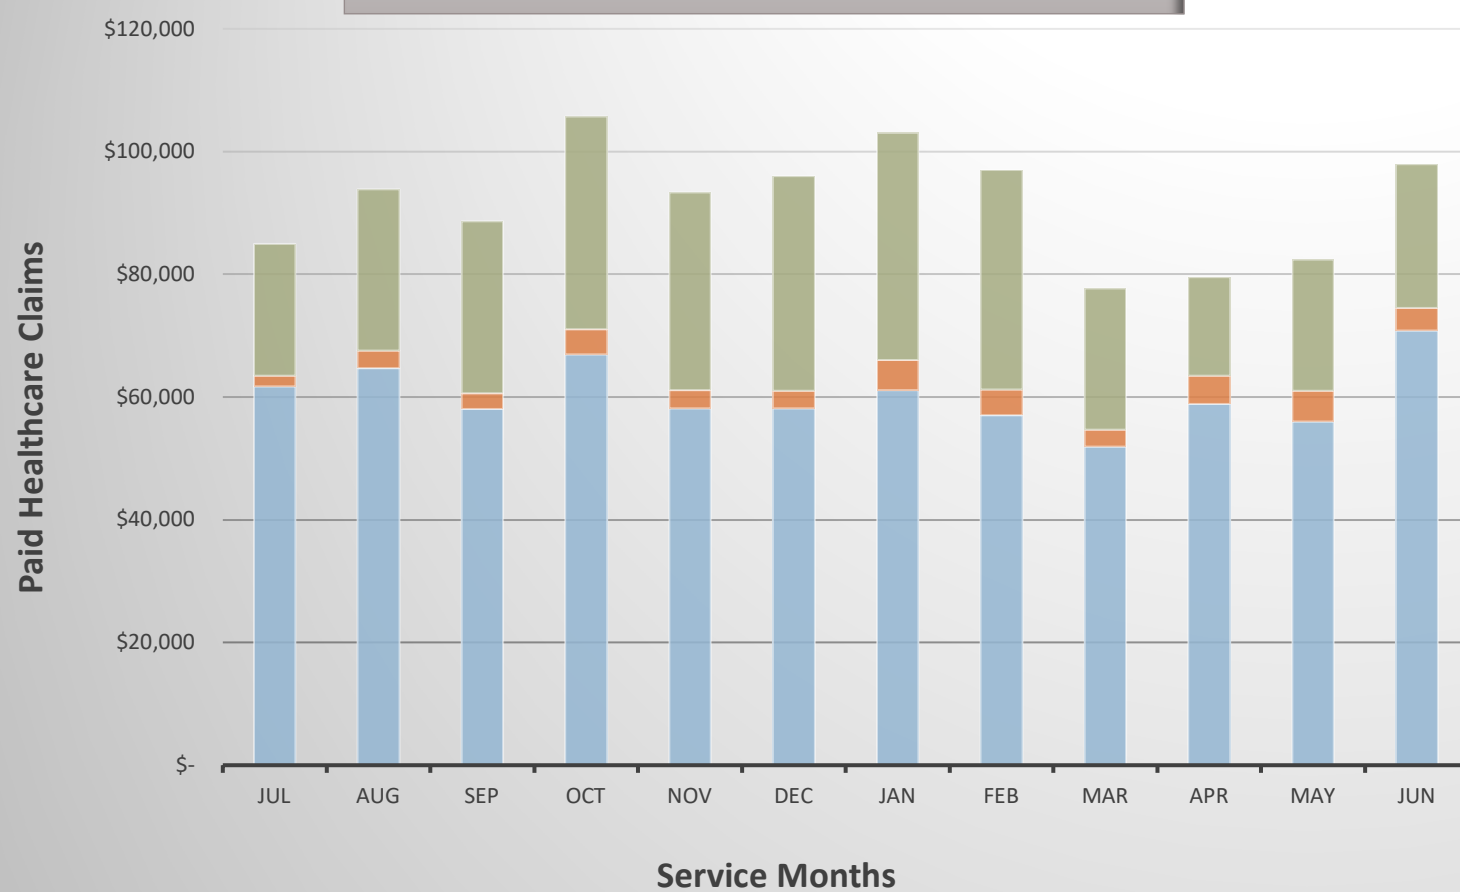

Senate Bill 30 was passed during the 2019 Legislative Session. The bill appropriated funding for the addition of Certified Behavioral Health Peer Support Specialists to the Montana Medicaid benefit plan. As of August of 2020, there are **84 Certified Behavioral Health Peer Support Specialists** in Montana, a **95% increase in certified professional workforce** since July 1, 2019.

**23 Health Care Centers Provided Peer Support Services**

### Healthcare Claims

**Peer Support Services - Year 1**

**Total Paid Claims \$1,100,067**
