

# Tattoos in Montana

Public health licensing and inspections help ensure safe ink

36%

of Americans between age 18-29 have at least one tattoo

In Montana, tattoo artists are required to obtain a license prior to offering services.

Permanent cosmetics and microblading are considered tattooing and require a license.

168

number of tattoo establishments licensed and inspected in Montana.

17%

of those who have tattoos regret them.

That guy advertising on Facebook may be cheap, but what is his work going to look like?

Just one more tattoo and I'm done....

\$1.65

billion dollars is spent every year on tattoos in the United States

Having a tattoo license in the state of Montana does not mean the the license holder is a skilled artist. It only shows that they are meeting public health requirements. Buyer beware. Ask your artist to see some of their work prior to letting them tattoo you.
