

Stock Albuterol Implementation Project Checklist

Project Goal:

Implement and sustain a stock albuterol program in your school or district to ensure rapid response to asthma symptoms and respiratory distress.

Project Steps:

1. Obtain school/district approval for stock albuterol implementation.
2. Develop and adopt school policy and procedures.
3. Obtain order for stock albuterol from a medical provider.
4. Obtain medication and spacers.
5. Inform staff and families about availability and use of stock albuterol.

****Note: Grant funding may not be used to directly pay for albuterol medication, spacers, or other medical equipment.***

Report Results:

Complete outcomes report form and return it to the School Health Program by May 31st of the school year in which the grant is received. Email, fax, or mail outcome report forms to the School Health Program using the contact information provided on the form.
