Greg Gianforte, Governor

Adam Meier, Director

Montana DPHHS, in partnership with the [10 Area Agencies on Aging](#), has conducted a Community Assessment Survey for Older Adults to help learn the priorities of Montanans related to services provided by the state. This valuable information shall feed into each of the ten Area Plans covering their planning and service areas as well as the State Plan on Aging for the time period, October 1, 2023 – September 30, 2027.

This was the first time DPHHS has conducted a survey of this type. The survey included questions about quality of life, important community characteristics, services provided and priorities for the future.

A random sample of participants was selected from each county throughout the state to take the survey beginning in late March.

The survey closed on June 8, 2022.

Survey results are available on the DPHHS website and will be presented at the Annual Governor’s Conference on Aging in early October.

Thanks for your participation!
Kerrie Reidelbach, Aging Services Bureau
